

Enabling Greater Independence at Home

Empower patients with an easier way to manage their medications, both during and after the episode of care

Enhance Medication Support for Complex Care Needs

- ✓ An easier way for patients to take medications as prescribed
- ✓ Safer, more effective medication therapy
- ✓ Better health and quality of life for patients
- ✓ Improved outcomes for home health organizations

Optimize Your Time and Impact

Reduced Administrative Burden

Pharmacist-led medication reconciliation and multidose packaging support efficiencies with fill visits

More Complete Medication Profiles

Updated medication profiles enable greater efficiency and accuracy when maintaining medication lists

Extended Support After Episode of Care

Ongoing pharmacy care provides expanded insight, with pharmacists available to be part of the IDT

Maximize Results with Proven Outcomes

Our comprehensive pharmacy care has been proven to enhance key outcomes that influence measures important to home health.

- Improved medication adherence
- Higher M2020 OASIS scores for patients on service
- Fewer hospital admissions and inpatient days
